SABARISWARAN V

Full-Stack Software Engineer | Angular · ASP.NET Core · C# · PostgreSQL

6382513885 | sabariswaran.swe@gmail.com | LinkedIn: linkedin.com/in/07-sabari

SUMMARY

Full-stack engineer with 3.7 years building production web systems with Angular, ASP.NET Core, C#, and PostgreSQL. Built a real-time streaming platform that served 6,000 election cameras and a workflow engine routing requests through 20–30 approval stages. Strong in REST API design, debugging, and system reliability; actively deepening Data Structures & Algorithms and System Design.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL

Frontend: Angular, RxJS, HTML, CSS, Bootstrap

Backend: ASP.NET Core, Web API, REST APIs, SignalR, MVC

Database: SQL, PostgreSQL (Queries, Joins, Indexing, Transactions)

Concepts: OOP, MVC Architecture, RESTful API Design, Authentication & Authorization, Data Structures & Algorithms, System Design Fundamentals, Problem Solving

Tools: Git (Version Control), Docker, Jira (Task Management), Entity Framework Core, Swagger/OpenAPI

PROFESSIONAL EXPERIENCE

Associate Software Developer — Xenovex Technologies *May 2025 – Aug 2026*

- Independently built and deployed Livestreaming, a real-time camera streaming platform, owning frontend, backend, integration, and deployment.
- Delivered live streaming for 6,000 polling-station and police toll-gate cameras during the 2026 election, keeping streams stable under concurrent load.
- Built SignalR real-time dashboards and multi-screen views (3x3, 3x3+2, 4x4 grids) to monitor many cameras at once.
- Designed secured REST APIs, authentication, authorization, and master-data modules consumed by Angular clients.
- Shipped role-based subsidy-booking features for a government agriculture application; gave emergency support on AED, Ticket One, and Electone.

Software Developer — KY Technologies *Aug 2022 – Nov 2024*

- Built core modules of National, a production approval platform: dashboard, user management, workflow, workflow levels, workflow mapping, and task requests.
- Developed REST APIs, authentication, authorization, masters, MIS reports, and workflow history tracking with Angular, ASP.NET Core, and PostgreSQL.
- Supported the HRMS project (user and attendance management) and demo projects; resolved production issues by tracing root causes.

KEY PROJECTS

Livestreaming — Real-Time Camera Streaming | *Angular · ASP.NET Core · SignalR · REST APIs*

- Scale: 6,000 cameras live-streamed in the 2026 election. Features: SignalR dashboard, configurable multi-screen streaming grids, camera management pages.

National — Approval Workflow (Bottle Manufacturing) | *Angular · ASP.NET Core · PostgreSQL*

- Scale: each product request passes 20–30 sequential department approvals; a rejected task returns to the responsible team, then continues. Delivered to production.

EDUCATION

B.E., Mechanical Engineering — ARS College of Engineering, Chennai | CGPA: 7.5

HSC — 75%
